Dear All

RUBBERCON 2024, an International Rubber Conference with the theme "**Sustainable Development in Rubber Industry, Challenges and Opportunities**" is being organized by Indian Rubber Institute (IRI) in Le Meridien, Kochi, Kerala, India, during 5 - 7 December 2024. This is the officially designated conference of the International Rubber Conference Organization (IRCO), London, UK. The International Rubber Conference Organization (IRCO) is an association of rubber societies around the world that plan the calendar for the main International Rubber Conferences.

By careful selection of conference proposals and monitoring of events, the IRCO ensures that all conferences run by its member societies meet the very demanding requirements dictated by the IRCO and thus provide delegates with first-class conferences. All main IRCO conferences are held annually. In 2009, the IRCO Committee decided to re-introduce the RUBBERCON series, starting in 2011. This series provides more specialized events but adheres to the high IRCO standards.

Indian Rubber Institute (IRI) is a professional body of people working in the field of rubber and allied industries and it has more than 4000 members and eight branches all over India. It has got affiliation with IRCO and ACS (American Chemical Society), USA. The objective of this institute is;

* To award Certificates and Diplomas by examination.

* To promote the dissemination of knowledge of all aspects of rubber science and technology by holding regular training classes, meetings, exhibitions, discussions, public lectures, publication of papers, periodicals, brochures, books, and other literature.

At present IRI is functioning in India from eight branches viz. Chennai, Delhi, Gujarat, Karnataka, Kerala, Kolkata, Mumbai and Rajasthan. The institute has produced more than 3,500 chartered Rubber Technologists to serve the Rubber Industries in India. To enhance its activities in the field of Polymer Science & Rubber Technology, IRI has set up **Dr.D.Banerjee Centre of Excellence (DBCCE)** in the premises of JSS Science and Technology University, Mysore, Karnataka, India. This Centre of Excellence will provide education, training, research, testing and skill development to the people in organised and unorganised sector specially in micro, small and medium sector rubber manufacturing units. This centre is also planning to provide support in the areas of new technology development, product design, simulation & modeling, project planning, testing & evaluation and reconstruction of compounding formulation and its development.

On behalf of the RUBBERCON 2024 organizing committee, IRI and IRCO, we have great pleasure in inviting you all to join the conference and make it a great success.

P.K.Mohamed
Chief Convener – Rubber Con2024

Dr. R Mukhopadhyay
Chairman-IRI

V.K. Misra
Vice Chairman, IRI

The Indian Rubber Institute (IRI) is a professional body of the Indian rubber industry and it is the successor in India of Plastics and Rubber Institute (PRI), London, U.K. The PRI in 1992 merged with the Institute of Materials, U.K. This again merged with the Institute of Mining and Metallurgy, U.K. and is now the Institute of Materials, Minerals and Mining (IOM3). These mergers in the U.K. prompted the promotion of the concept of forming a national institute. Thus the Indian Rubber Institute (IRI) was formed and registered under the West Bengal Societies Act XXVI of 1961 at Kolkata on 25 May 1987.

Under the auspices of the Institute of Rubber Industry, U.K. an international body was founded in 1921, an Indian Advisory Committee of the Institute was set up for the first time in India in 1946 with headquarters at Kolkata. The inaugural ceremony was held at the University College of Science, Kolkata under the Chairmanship of Mr. F. Brierley.

During 1947 the Indian Advisory Committee was reconstituted into a full-fledged Indian Section of the Institute of Rubber Industry, U.K. The Indian Section of the IRI was fortunate to have the blessings of distinguished scientists, technologists and industrialists including Sir J. C. Bose, Sir Ramaswamy Mudaliar and others. The Late Dr. D. Banerjee acted as Honorary Secretary for several years.

The IRI is a non-profit organisation engaged in the development of diverse areas of rubber technology education. Today the institute has got 8 branches and 13 sub-branches. The institute has produced more than 3500 chartered rubber technologists by conducting courses and holding examinations. IRI is making efforts to reach its members to keep them abreast with the latest trends and developments, products and processes and to provide them a platform for interaction with the global rubber industry.

OFFICE BEARERS

(PRESENT)

Dr. R Mukhopadhyay
Chairman

V.K. Misra
Vice Chairman

Mehul Patel
ACS Area Director, IRI

P.K. Mohamed
Past Chairman

Dr. S Bandyopadhyay
Hon. Secretary

B. Jayamani
Chairman Education
Committee

S. Vasudeva Rao
Advisor-IRI

CONFERENCE FEE & SPONSORSHIP DETAILS

CONFERENCE FEES		SYMPOSIUM FEES	
CATEGORY	AMOUNT	SYMPOSIUM	AMOUNT
Non IRI Members	Rs.20000	Tread Rubber Technology	20000/- (USD 400**)
IRI Members	Rs.10000	Sustainable development for Circular economy	20000/- (USD 400**)
Students	Rs.5000	Tyre Traction & Wear	50000/- (USD 650**)
Foreign Delegates	\$650		
Other Delegates*	\$350		

* Delegates from Sri Lanka, Malaysia, Thailand, Vietnam and Myanmar, Afghanistan, Pakistan and Bangladesh.

** Foreign Delegates

S NO.	SPONSORSHIP	TARIFF	BENEFITS
		INDIA (INR)	
1	Main Sponsor (Only one)	5000000	Display of Logo and Company Name on stage, one page color advertisement on prime location of conference souvenir, displays and audio visual during the first day dinner and free registration of 10 delegates
2	Platinum	2500000	Display of Logo and Company Name on stage, one page color advertisement on prime location of conference souvenir, displays and audio visual during the first day dinner and free registration of 8 delegates
3	Diamond	1500000	Display of Logo and Company Name on stage, one page color advertisement on prime page of conference souvenir and free registration of 6 delegates
4	Gold	1000000	Display of Logo and Company Name on stage, one page color advertisement on prime page of conference souvenir and free registration of 4 delegates
5	Silver	500000	Display of Logo and Company Name on stage, one page color advertisement on prime page of conference souvenir and free registration of 3 delegates
6	Bronze	300000	Display of Logo and Company Name on stage, half page color advertisement in Souvenir and free registration of 2 delegates
7	Supporter	200000	Display of Logo and Company Name on stage, half page B/W advertisement in Souvenir and free registration of 1 delegate.

The revenue generated through this conference will be utilized for the promotion of education, training and skill development activities for the Rubber and Allied Industries in India through Indian Rubber Institute, PAN India.

1st to 3rd March 2016
Hotel ITC Grand Chola, Chennai, India

CONFERENCE VENUE

LE MÉRIDIEN HOTEL

Kochi, Nettoor, Maradu, Kochi, Ernakulam, Kerala 682304

WHO SHOULD ATTEND THIS PROGRAMME

All the people working / studying in the field of:

- *Rubber and Allied Industries*
- *R&D Organizations*
- *Technical Executives*
- *Quality Control Executives*
- *Educational Institutions*
- *Testing Laboratories*
- *Product Testing Centers*
- *Raw Material Manufacturers*
- *Automobile Industries*
- *Polymer/ Rubber/ Chemicals Industries*
- *Students / Research scholars*
